

## White Paper- Parklands for People

### Submission from the Committee for Sydney

---

July 2021

### About the Committee for Sydney

The Committee for Sydney is an independent think tank and champion for the whole of Sydney, providing thought leadership beyond the electoral cycle. We bring people together to solve the problems of today and tomorrow.

With over 150 member organisations, we work on behalf of Sydney, not the interest of any industry or sector. Our goal is to build on our already strong history of shining a light on critical issues shaping our city and developing a suite of actions for a better future.
